May 15, 1976

Dear Mr. Weisberg,

I'm amazed at how fast time goes by and ashamed that weeks have past since I received your kind letter with information about Matt Herron and about the "Allbredge" bullet gash. My belated thanks. I did send a letter to Mr. Herron in care of one Joyce Herron in Santa Barbara. However nothing came of it and, since I am not pursuing the matter with very special interest, I'll just let it drop. That bullet gash (presumably a bullet, of course) does come back to plague me now and again.

Glad to have your recollection that the

bullet, if such it was, appeared to come from SW- toward NE.

Hope you are over that phlebitis attack, or nearly so. Was glad to see that you were able to appear on Like It Is on the James Earl Ray case. The judge's decision to block Ray's appeal for another trial an example of the usual vicious unfairness -

I find the current effort to tie JFK assassination to CIA ~~attempts~~ to rub out Castro outrageous -especially in view of hostility between JFK & CIA on just this matter among other things. I must write Senators Schweiker & Gary Hart. The Church Committee & especially Church himself have done a lot of good work, some light in the general darkness

Glad Mark Lane has suggested to Rep Edwards of Calif. that he call witness on TWX matter.

To me Jimmy Carter looks like the best of them ... hope he makes it all the way.

P.S. "They" went off with my full garbage cans the other day!

very best
Madeline Soldard
